DOUBLE your gift through Corporate Matching

Many companies have programs through which they will "match" the charitable contributions made by their employees. Through corporate gift matching, your employer can multiply your gift, making it go further.

Check with your company's Human Resources office to see if they offer gift matching. (If they don't, you may want to ask your company to start one.) If your employer does offer this program, your Human Resources department should provide you with a matching gift form to send along with your donation.
